

# DO-IT-YOURSELF COOLANT & DEF FLUIDS ANALYZER

**Affordable, Easy-to-use  
Diagnostic Tool.**

**Clear, Understandable  
Reporting.**

**Reliable, "Lab Quality"  
Results with 9 Tests in Less  
than One Minute**

**OSA<sup>4</sup> CoolCheck™** uses OSA's leading-edge and proprietary technology so you can **diagnose problems with coolants and DEF fluids in less than a minute**. CoolCheck offers two options to connect to the Internet, and the dedicated printer instantly prints concise, understandable results. The data can also be downloaded to **LubeTrak®**, OSA's web-based, password-protected data mining, storage and trending tool.

Industry studies confirmed that **40% of ALL engine breakdowns can be attributed to the cooling system.**

Now, you can test to **make sure breakdowns don't happen** with the OSA<sup>4</sup> CoolCheck Analyzer.

**CoolCheck** takes the guesswork out of diagnosing problems with the cooling system; **in less than a minute and for about one-fifth the cost\*** of traditional lab testing.

**So what's it going to be?** What you're doing now at \$25 and five days per test, OR \$2 and one minute per test with CoolCheck?

\*Analysis available on request.
